Welcome at Statron

Tradition & Innovation

Since more than 40 years, Statron is THE partner for uninterruptable power supply (UPS) solutions and battery systems. More than 30,000 UPS and battery systems have been successfully delivered, installed and are in operation at more than 3,000 clients in more than 100 countries. This success is based on traditional Swiss values that focus on technical excellence and quality in all areas of operation. We welcome you to be part of it.

Your reliable UPS Solution

Based on the needs of our clients, we supply solutions around the following product groups:

- Industrial rectifiers, 1~ and 3~
- Industrial inverters, 1~ and 3~
- Industrial UPS, 1~ and 3~
- Semi-industrial UPS, 1~ and 3~
- Bypass cabinets
- Any additional systems and cabinets to the above
- Battery systems
- Ground support equipment for aircrafts
- Services to the above
- Battery systems for high energy storage

Market Segments

We offer a wide range of products and solutions for UPS and battery systems. "Do the right things right", is what drives us. That's why we focus on the following market segments:

Global & Local

One reason for the 40 years of success is the focus on our customers. To serve our clients best, we have decided to establish a strong subsidiary network. With subsidiaries in Malaysia, India, UAE, Hungary, Austria, Germany and The Netherlands as well as in the Swiss Romandy, we are strong and close to our clients.

Beside our own subsidiaries, we cherish an active network of partners. So, wherever you are, we are close.

PT Nirwana Selaras Tangguh
WE PROVIDE ENERGY SOLUTION

Oil & Gas

One of the most challenging applications when it comes to quality and reliability is the Oil & Gas sector. Statron's UPS are used globally on offshore oil platforms, in refineries, in pump stations and in many more applications at the Oil & Gas sector.

PRODUCTS

- AC UPS**

- IDTe
- SMT AC modules

Batteries

- NiCd
- Lead acid

Additional equipment

- Bypass equipment
- Fuse boxes
- Distribution equipment
- Customised equipment of any type

SERVICE ARE IMPORTANT

Services support is important to keep a UPS system running. This starts at the installation and commissioning and goes through maintenance and training. A trend is the retrofitting of installed systems. For systems with difficult access, a retrofit of all electronic parts can be offered while main metal parts (e.g. cabinet, cable connections) remain. The advantages are faster delivery and less-complex on-site installations.

Our flexibility

We do the services for you – if you want. However, we also acknowledge if you have a good team and we train and certify your people. Our staff is trained to train you. Feel free to contact us.

- Installation and Commissionings
- Maintenance and Service
- Education and Trainings
- Service Contracts
- System Checks
- Modification and Retrofitting
- Spare Parts
- Repairs

Registration/Certification

PEMERINTAH REPUBLIK INDONESIA
